

Noparametric tests

– **normality** –

anderson_test.sci - test for normality

shapiro_test.sci - test for normality

– **independence** –

cor_test.sci - test for independence

chisquare_test.sci - test for equality of observed and expected frequencies

chisquare_test_h.sci - test for homogeneity

chisquare_test_i.sci - test for independence

– **median** –

sign_test.sci - test for equality of two medians

mannwhit_test.sci - test for equality of medians - independent samples

wilcoxon_test.sci - test for two medians - paired samples

kruskal_test.sci - test for equality of several medians (nonparametric anova)

friedman_test.sci - test for equality of medians
