

Parametric tests

z_test.sci - test for expectation (*known variance*)

t_test.sci - test for expectation (*unknown variance*)

z_test_2.sci - test for two expectations (*known variance*)

t_test_2s.sci - test for two expectations
(*independent samples, equal variances*)

t_test_2n.sci - test for two expectations
(*independent samples, different variances*)

t_test_2p.sci - test for two expectations
(*paired samples*)

prop_test.sci - test for proportion

prop_test_2.sci - test for two proportions

var_test.sci - test for variance

var_test_2.sci - test for two variances
